

# Zehnder SC Arteplano Premium

Electric operation

Product data sheet

always the best climate

## Zehnder Arteplano Premium

Pure and simple. This designer radiator celebrates the perfection of material and finish, combining state-of-the-art heating technology with striking contemporary design. The smooth surfaces efficiently give out a pleasing warmth whilst subtly integrating the radiator into the room. Alternatively, it can be transformed into a feature in its own right with the wide selection of materials and finishes. The only limit is your imagination. Arteplano from the Zehnder Studio Collection. The art of making a statement.

## Advantages

- Many models, efficient performance
- Short response time means rooms can be heated up quickly
- Available with integrated valve
- Available in the full range of colours in the Zehnder colour chart
- Optionally available with exclusive special materials and surfaces
- Available for operation on central heating systems or electric operation
